A HELPING HAND

Is Gladly Extended by a Barre Citizen.

There are many enthusiastic citizens in Barre prepared to tell their experience for the public good. Testimony from such a source is the best of evidence, and will prove a "helping hand" to scores of readers. Read the following statement:

Mrs. T. D. Strout of 137 Seminary street, Barre, Vt., says: "My kidneys were affected for about five years, causing me a great deal of pain in the small of my back. I would have such sharp twinges shoot through me when I attempted to stoop or lift anything that I had to rest until the attack passed off. I was so nervous I could not sleep nights, but tossed and turned continually. I was so depressed by what I read about Doan's Kidney Pills curing others that I got a box at E. A. Drown's drug store. After using it there was a noticeable change for the better in my condition and I kept on taking the remedy until the pains in my back disappeared. I could do my housework with ease and could sleep well nights. For backache and kidney trouble Doan's Kidney Pills are a most reliable medicine."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

MONTPELIER

Rev. Fr. J. J. Cullion, assistant pastor of St. Augustine's Catholic church, announced Sunday that the population of the parish according to the census just taken was 1,650. He has been employed on the task four or five weeks, visiting every Catholic family in the city and neighborhood who are members of the church. The Catholic census is being taken up throughout the country at this time, and the work here was on the same lines as was done elsewhere in the country. When the returns are all in, it will be possible to arrive at not only the Catholic population of Vermont, but of every state in the union.

C. W. Sears, formerly of Burlington, was in town yesterday afternoon on his way to New Hampshire on matters connected with his land in Washington. He is selling timber in that state. He is in company with the men who recently went from Montpelier, and they have a large amount of timber for sale.

Rev. and Mrs. George H. Moore left yesterday for Cambridge, Mass., where Mr. Moore will visit her people for a few weeks. Mr. Moore will go to Pawtucket, R. I., where he attends a ministerial convention from the 29th to the 31st.

Raphael Aja has returned from Spain, where he has been spending the summer, and brought back with him a bride, whom he married in the old country. Mr. and Mrs. Aja arrived in town Sunday.

Louis Wood is to go back to Montana again and will take with him two of Mrs. Dolan's children, who have been visiting her since they came east with their mother, who brought their father's body for burial here. Mrs. Dolan contemplated returning to Vermont to live after her husband's death, but on going back to Montana decided to stay there and wanted Mr. Wood to go and finish his vacation and bring the children with him, which he will do in the course of a week or two.

William T. Whelan is to be located in New York in charge of the department of inspections for the American Fidelity company, after December 1, and will go to that city with Mrs. Whelan to reside.

Walker & Gallison, engineers, have completed a contour map of Hubbard park and will take with him two of Mrs. Dolan's children, who have been visiting her since they came east with their mother, who brought their father's body for burial here. Mrs. Dolan contemplated returning to Vermont to live after her husband's death, but on going back to Montana decided to stay there and wanted Mr. Wood to go and finish his vacation and bring the children with him, which he will do in the course of a week or two.

Miss Alice Bushnell was operated upon at Heaton hospital yesterday for the removal of a tumor. She came from her home in Watfield last Friday. The operation is considered successful.

The large boom derrick at the B. B. Gale garage shed, near the Central Vermont railroad freight house, fell on Friday and smashed a large hole in the roof of the shed. The fall is thought to have been due to the failure of one of the guy ropes. The mast of the derrick was roost on Saturday and yesterday workmen were repairing the guy. No one was hurt when the large stick fell, but it was wholly due to luck that someone was not seriously injured.

Work was begun yesterday at the Junction on the new engine house. The shells are being laid and the superstructure will be rushed as much as possible. Timbers from old bridges are being used for the underpinning and several carloads of new lumber for the sides are already unloaded.

The six cases of measles, which broke out at the new school building on Friday, are proving very slight, none of the children being ill in an alarming degree. The six cases were in the first grade, which is taught by Mrs. F. N. Parrot, and the fact that they all reside on Fuller street leads to the conviction that the disease was not contracted at school.

That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children, too, are greatly strengthened by them. He fired five shots from a 38 calibre rifle in the neck and shoulder, four of the shot being fired while both eyes on the running through the woods. Pretty good shot for a boy.

NOT A FINANCIAL SUCCESS.

Mr. Topping Makes Statement About Jamestown Exposition.

Manchester, N. H., Oct. 29.—William H. Topping, New Hampshire commissioner to the Jamestown exposition, arrived in Manchester Saturday night and will remain here a few days before returning to Virginia. He intends to complete his duties at Jamestown within the next two weeks and return to Manchester with Mrs. Topping.

Speaking of the exposition and its condition, Mr. Topping said that it has not been a financial success, owing to the fact that it was not completed when opened and because of its inaccessible location. More than 3,000,000 people have already visited the exposition, but it was expected that about double that number would attend. The exposition is in a superb location, but many of the northern visitors have been compelled to reach it by water transportation, and this fact has been a big handicap. It is a very pretty exposition, he says, despite the fact that it is not on so large a scale as those held at Chicago and St. Louis.

Next washing day take the daintiest and most delicate shirtwaists of linen or lace work you have—the ones that are most particular about—and starch them with

KINGSFORD'S OSWEGO SILVER GLOSS STARCH

Then compare the result with any starching you ever did with ordinary starch. You will see at once that the fabric starched with Kingsford's is whiter and more pliable, a delight at once to the sight and touch. Kingsford's Oswego Silver Gloss Starch is unapproached for the lightest or heaviest work. It keeps linens from turning yellow—lace work from breaking. You must try it.

BEST FOR ALL KINDS OF STARCHING.
For general use boil as directed. For light starching, unequaled as a cold water starch, requiring no boiling. Made for over 50 years at Oswego. All grocers, full-weight packages. T. KINGSFORD & SON, Oswego, N. Y. National Starch Co., Sudbourn.
